**SPRINKLER SUPERVISORY and
WATERFLOW ALARM SERVICE**

The remarkable effectiveness of automatic sprinkler systems often is nullified by conditions, usually created by human errors, which impair or destroy their usefulness.

ADT Sprinkler Supervisory and Waterflow Alarm Service effectively safeguards against such conditions. During 1947, the following alarms received from ADT-supervised sprinkler systems were reported for immediate corrective action.

183,114 ALARMS from Sprinkler Systems in 1947

99⁹⁷/₁₀₀% IMMUNITY from Fire and Water Loss

The enviable record of ADT Sprinkler Supervisory and Waterflow Alarm Service in helping to maintain sprinkler systems at maximum efficiency was continued during 1947. Losses in relation to property values, as given below, attest the outstanding effectiveness of these services in the protection of thousands of properties throughout the country.

Insurable values of properties protected
\$7,574,165,000.

Ratio of losses to insurable values
3/100ths of 1%

Year after year, properties protected by ADT-supervised sprinkler systems have experienced this same high degree of protection. During the past ten years the ratio of annual losses to insurable values protected has averaged **3/100ths of 1%** — an immunity from fire and water-loss of **99-97/100ths %.**
