

99.98% *immunity from fire*

- During the year 1933, the total fire losses in AERO protected properties were but 2/100ths of 1% of the values protected...99.98% immunity from fire! There was no loss of life in any property protected by AERO.
- From the beginning of 1931 to the end of 1933 there were 208 fires in AERO protected properties.

No loss was reported in 134 fires, and in only 18 cases was the loss over \$500.

- During 1933 there were more than 7,000 AERO Automatic Fire Alarm circuits in operation in 116 cities from coast to coast.
- All of the principal buildings of A Century of Progress, Chicago, were protected by AERO. No serious fire losses were recorded.
- **This record compares favorably with the fire loss record for properties protected by supervised automatic sprinkler systems.**
