Tell a friend, tell your club

I repair solid state & tube amplifiers

(Manufacturer support may be gone, but I am still available)

I stock most **Ameritron** parts (*and other mfg*). → That means faster repair.

New life for your Ameritron or other amplifiers

→ Located in Florida

(*Read below*)

Act now, while the stocked parts last.

Email Bruce → W8HW@comcast.net

For quotes or questions, use email listed above. I will return your email quick.

RF Amplifier and other repairs – I can repair them for you **FAST** & **FAIR**.

- **FCC First Class commercial**

- Amateur (ARO) since 1963
- Life Member CWops. Member # 958 and QCWA- Ham for over 60 years service
- Amateur Extra (1973) + full CW (*FCC tested*)
- Not a vanity call, W8HW is an FCC designated "HAI"

-- Also --

Attention: **I can design & build for you automated smart devices, using a microcontroller and others. Many of my devices have been used around the world.**

I am a retired Broadcast and radio systems engineer that loves to design, test and build. I do cmplete software & hardware design. If you have a need or idea, feel free to contact me. Costs may be less than you think, because this is a now hobby for me and not a business. For more information please use email W8HW@comcast.net.

Examples of what can I design and build do for you?

- Smart devices or Automated devices
- Business, Home, Ham & other uses
- Automation for Contest or Remote ham station
- Automated antenna or tower switching
- Monitoring devices
- Tracking devices
- Energy saving devices
- Safety improvement devices
- Signaling devices
- Measuring devices
- RF or Wire connected
- Digital or Analog
- Large equipment monitoring and automated control
- - More
- -- Large or small I will consider them all

Really→ Email me about your idea.

It never hurts to talk; results may surprise you. If you have a NEED or IDEA, feel free to contact me via above email today. Let's get talking about your SMART needs today.

- **Some people have made money from their ideas. I can help you with that**.
